Foxilloscope | placement (component side)

Print at 100% / actual size, disable "fit to page", then verify the ruler. Lay this on the component side and push leads through the marked holes.

50 mm - measure this. If it isn't exactly 50 mm, reprint at 100% (no "fit to page").

Foxilloscope | track cuts (copper side, mirrored)

Mirrored for the underside. Cut each ×. Verify the ruler.

50 mm - measure this. If it isn't exactly 50 mm, reprint at 100% (no "fit to page").
